

THE ULTIMATE

BOARD ORIENTATION

FREE, SELF-PACED

A board orientation process is central to giving board directors information, context and perspective so they don't have to pick things up as they go. A proper board member orientation leaves new members inspired, engaged, and ready to contribute.

South East District has created a self-paced board orientation module that can be accessed anytime. It complements any board orientation program. It helps those volunteers to become better prepared to be active board members. And it is free!
